CHAIRMAN'S MESSAGE

SANDEEP SONI

Transforming Challenges into Opportunities

The past year has reaffirmed that sustainable development is achieved through collaboration, innovation, and a shared commitment to creating lasting social impact. At Dream Environment Foundation, we have continued to strengthen communities by investing in people, protecting natural resources, and creating opportunities that improve quality of life.

Our interventions have focused on empowering youth with employable skills, supporting aspiring entrepreneurs, promoting environmental sustainability, strengthening digital inclusion, and improving community health and well-being. Every initiative reflects our belief that meaningful development begins with empowered individuals and resilient communities.

The growing confidence placed in DEF by government institutions, CSR partners, educational organizations, and local communities has enabled us to expand our outreach and enhance the quality of our programmes. We remain committed to delivering measurable impact through transparent governance, innovation, and strategic partnerships.

As we look ahead, our vision remains clear—to create sustainable ecosystems where people, communities, and the environment thrive together.

I extend my sincere appreciation to our partners, volunteers, beneficiaries, and dedicated team members for their unwavering support in making this journey possible. Together, we are creating a better tomorrow.

ORGANIZATION PROFILE

Dream Environment Foundation (DEF) is the social development and Corporate Social Responsibility (CSR) arm of Dream Weavers Group, established to address critical social, environmental, and economic challenges through sustainable development initiatives. The Foundation works across multiple thematic areas, including skill development, environmental conservation, entrepreneurship, digital inclusion, healthcare, and community welfare. By partnering with government agencies, corporate organizations, educational institutions, and local communities, DEF designs and implements programmes that create measurable and sustainable impact.

OUR VISION

To build inclusive, empowered, and environmentally sustainable communities where every individual has the opportunity to thrive with dignity, self-reliance, and equal access to development opportunities.

OUR MISSION

To design and implement sustainable development programmes that enhance livelihoods, protect natural resources, strengthen entrepreneurship, improve digital access, and promote holistic community development through collaborative partnerships and innovative solutions.

OUR STRATEGIC THEMATIC AREAS

Environment & Climate Action

Promoting sustainable environmental practices through afforestation, biodiversity conservation, waste management, circular economy initiatives, and climate awareness programmes.

Skill Development & Employability

Enhancing employability by delivering industry-relevant vocational training, digital skills, career readiness programmes, and livelihood opportunities for youth.

Entrepreneurship Development

Encouraging self-employment through enterprise mentoring, business development support, financial literacy, and entrepreneurship promotion initiatives.

OUR STRATEGIC THEMATIC AREAS

Digital Inclusion

Bridging the digital divide by improving digital literacy, expanding access to technology, and enabling communities to participate in the digital economy.

Health & Community Well-being

Improving public health through awareness campaigns, preventive healthcare, medical outreach, sanitation initiatives, nutrition programmes, and community welfare interventions.

Women & Youth Empowerment

Strengthening leadership, financial inclusion, life skills, livelihood opportunities, and social participation among women and young people.

PROGRAMME HIGHLIGHTS

1) Building Sustainable Communities

Environmental initiatives promoted responsible waste management, resource conservation, biodiversity enhancement, and climate awareness through community participation.

2) Creating Employment Pathways

Industry-oriented skill development programmes equipped young people with technical competencies and employability skills, enabling improved livelihood opportunities.

3) Promoting Entrepreneurship

Business mentoring, enterprise guidance, and entrepreneurship development initiatives empowered aspiring entrepreneurs to establish sustainable livelihoods.

4) Accelerating Digital Inclusion

Digital literacy programmes enabled communities to access technology, online services, and digital learning opportunities.

5) Strengthening Community Health

Medical outreach programmes, health awareness campaigns, sanitation initiatives, and nutrition interventions contributed to healthier communities.

6) Empowering Women and Youth

Focused programmes enhanced leadership, confidence, financial inclusion, and economic participation among women and young people.

IMPACT AT A GLANCE

14,495+

EMPLOYMENT

opportunities facilitated across diverse industries.

900+
ENTREPRENEURS

supported through enterprise development programmes.

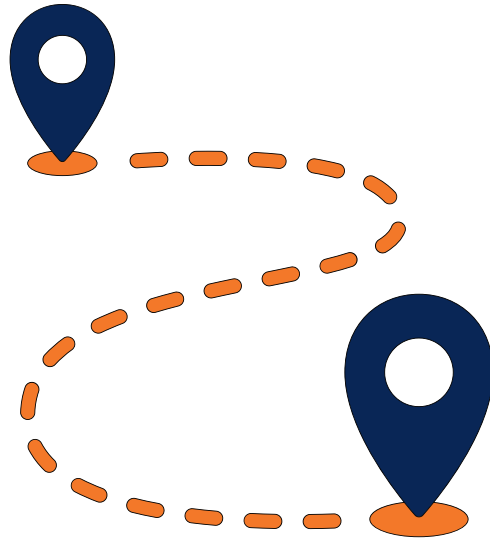

1,500+
ENTREPRENEURS

Volunteers, professionals, and stakeholders engaged.

PARTNERSHIPS FOR IMPACT

OUR ROADMAP 2026–27

- Expanding environmental sustainability programmes.
- Scaling vocational education and employability initiatives.
- Strengthening entrepreneurship ecosystems.
- Increasing digital access for underserved communities.
- Enhancing healthcare and community well-being interventions.
- Building new strategic CSR and government partnerships.
- Adopting technology-driven monitoring and impact measurement systems.
